

Nurturing Africa's Gifted Tech Talents

A decade of discovering, nurturing, and empowering gifted minds to become world-class tech leaders

Support Our Mission

Join Next Cohort

We take pride in our distinctive approach: rather than directly teaching technical skills, we focus on unleashing the inherent potential within talented tech enthusiasts.

OUR UNIQUE IMPACT

1000+

Tech Talents Transformed

10+

Years of Impact

50+

Collaborative Projects

OUR APPROACH

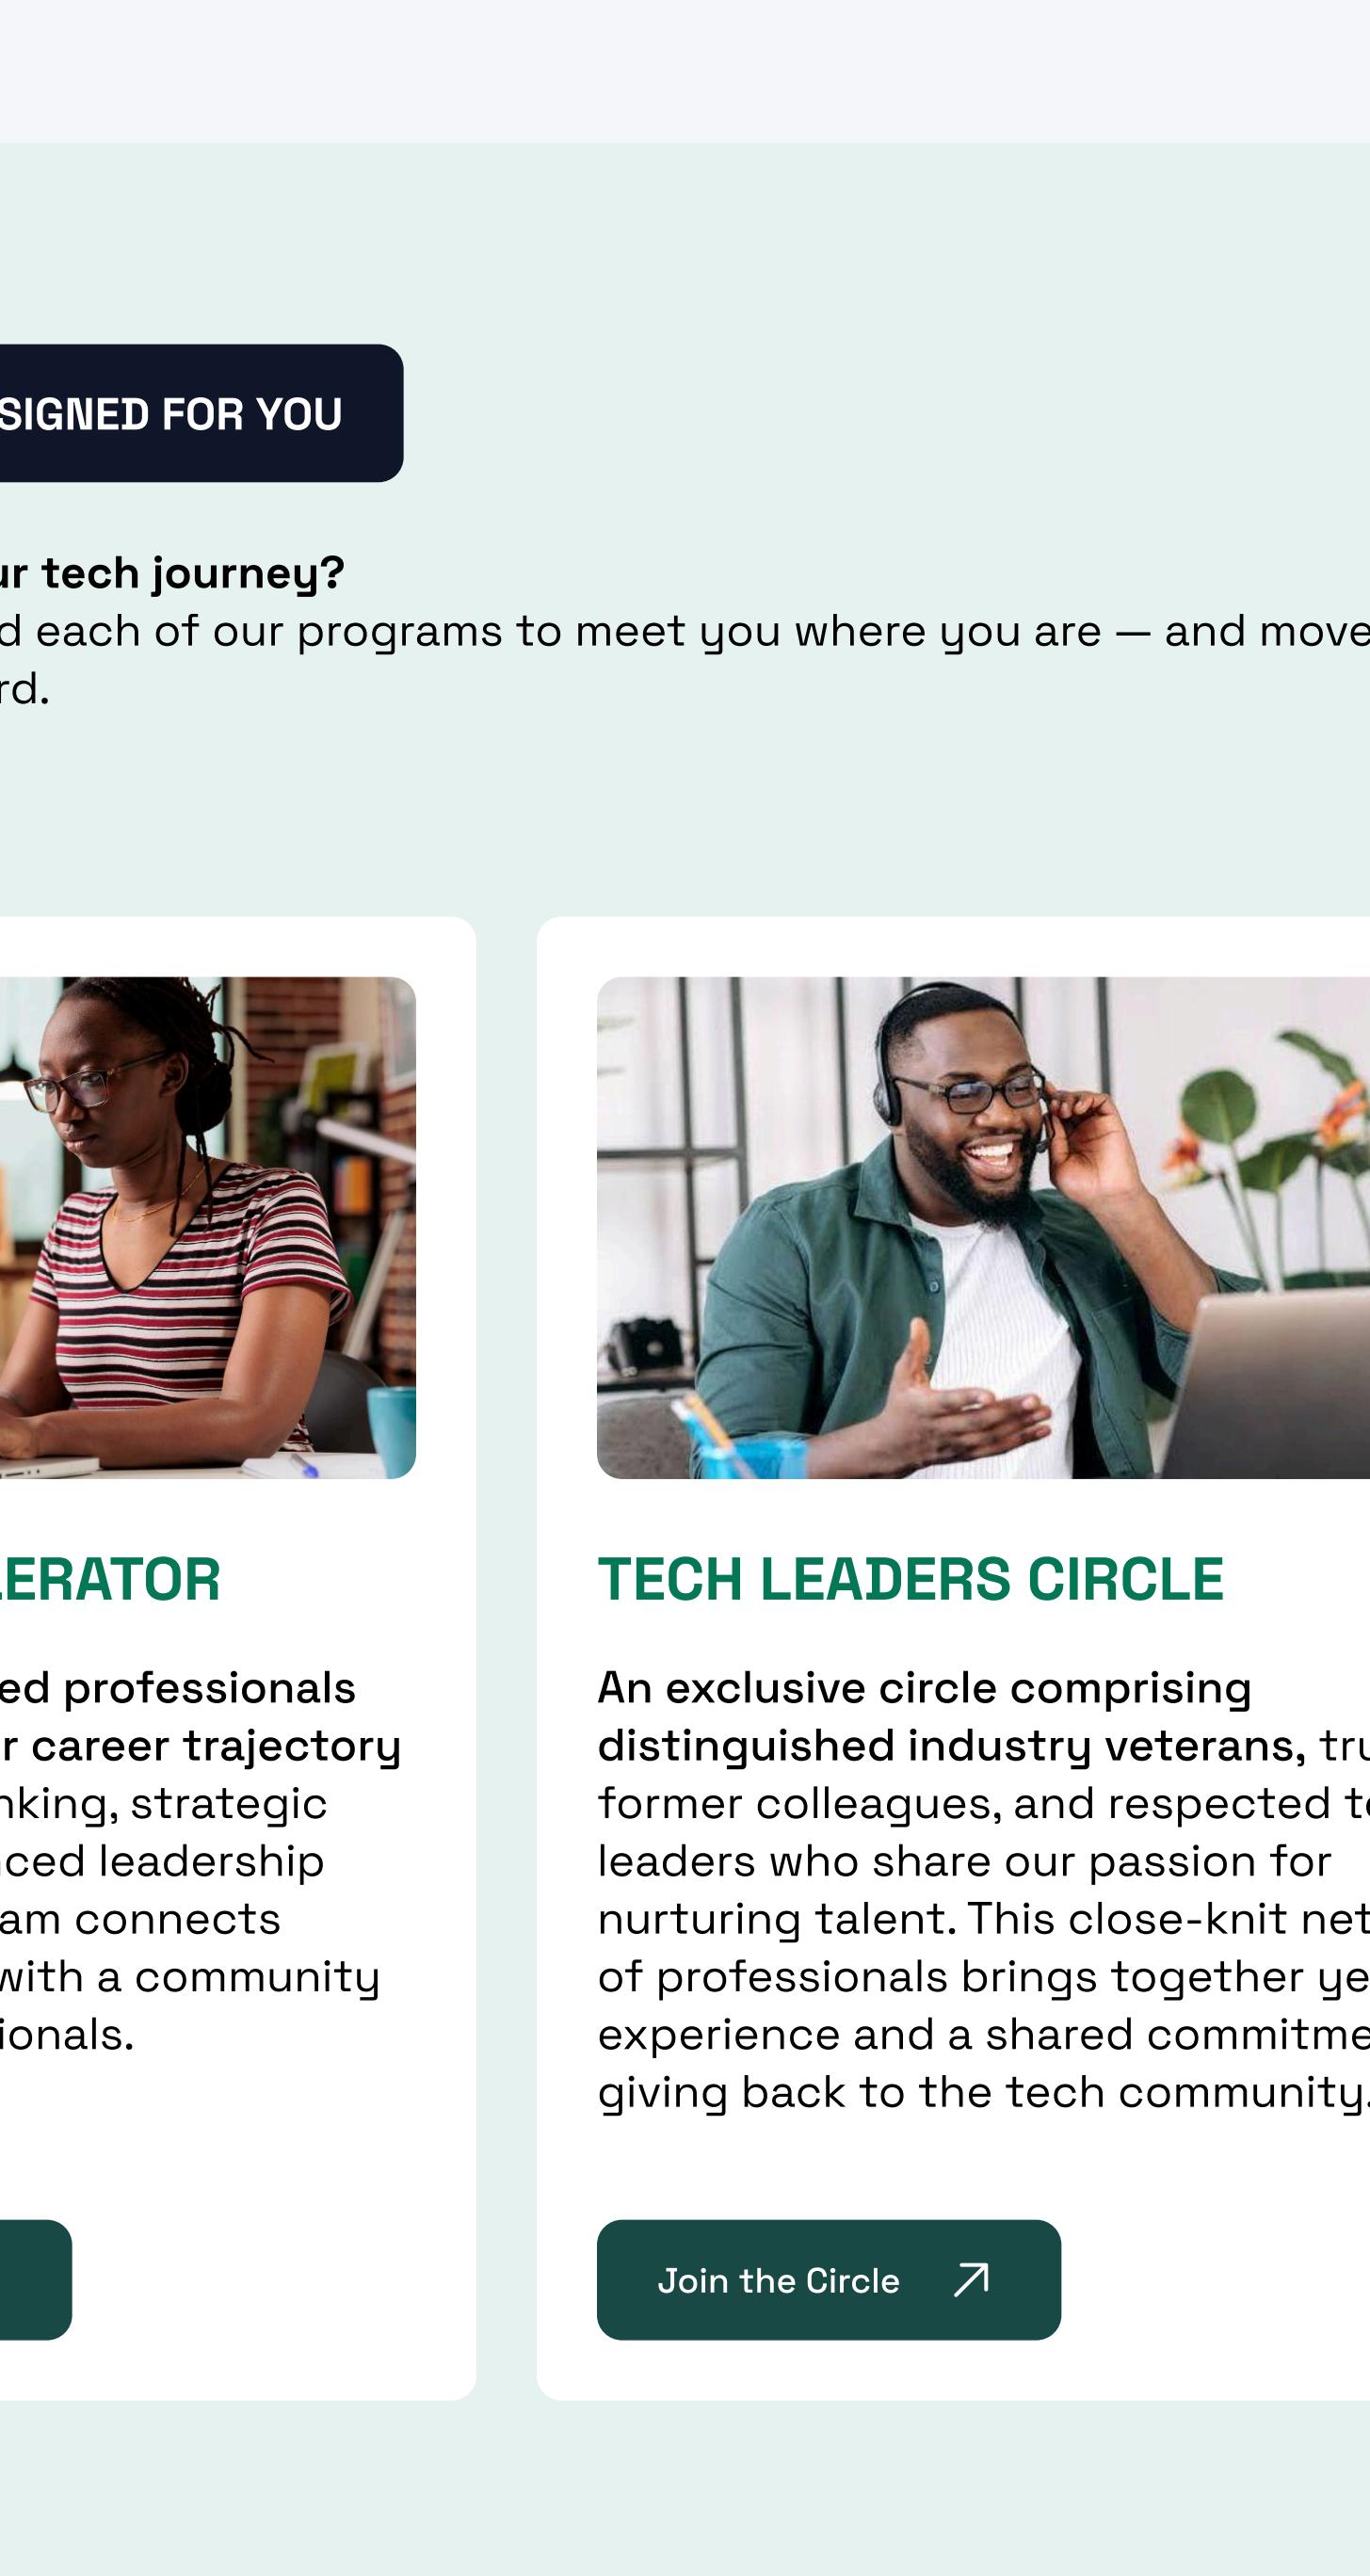

Through mentorship, motivation, and strategic guidance, we help talented individuals transform into outstanding tech professionals. Our strength lies in our community-first approach, where real growth happens through shared learning and accountability.

"THE MACHINE SPIRIT"

We've built what our members call the "Machine Spirit" – a culture of relentless excellence, problem-solving, and world-class work ethic. It's not just about skills; it's about becoming the kind of person who stands out anywhere.

FROM POTENTIAL TO POWER

Our members don't just level up in tech. They lead with clarity, solve with confidence, and thrive in every challenge professionally and personally.

"Our community doesn't just create developers or designers – we nurture individuals who approach every challenge with the 'Machine Spirit', turning them into exceptional problem solvers and leaders in their fields."

MEET OUR FOUNDER

VISIONARY LEADERSHIP

Segun Mustafa is a seasoned CTO and Software Engineering leader with over 15 years of experience building and scaling enterprise systems – particularly in business automation and fintech.

MASTER OF HIS CRAFT

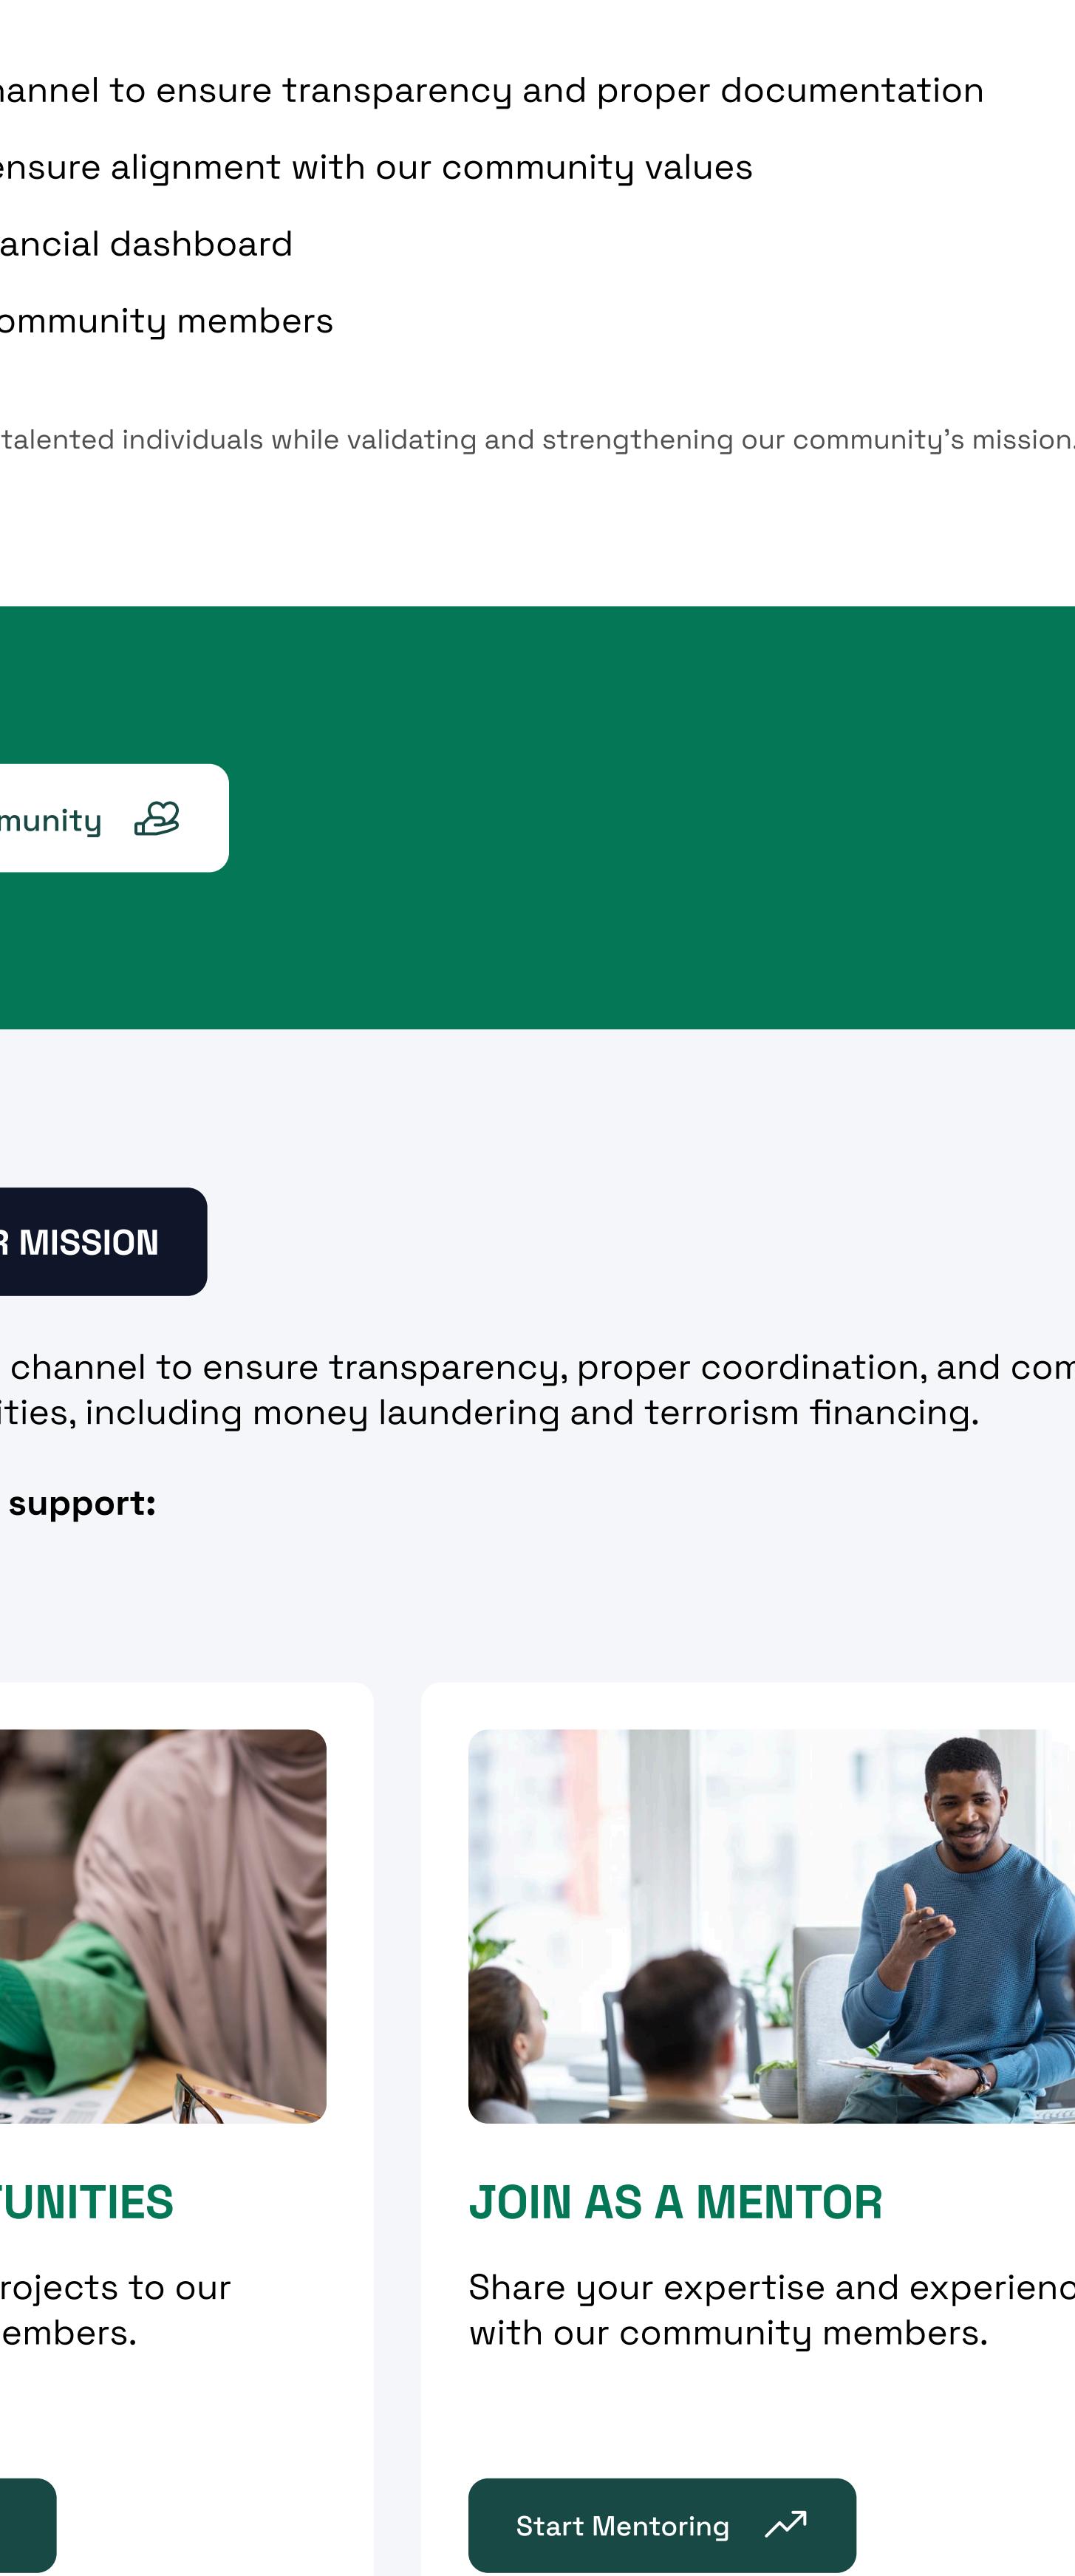

A certified Oracle Java Master since 2011, Segun also holds a BTech in Information Technology and multiple technical certifications. His expertise spans high-performance systems, cloud-native architecture, and scalable platforms used across continents.

BEYOND TECHNICAL EXCELLENCE

What sets Segun apart is his unwavering commitment to giving back. Rather than simply leading from the top, he's built an ecosystem that empowers aspiring African tech talents through mentorship, real-world projects, and access to global tech leaders.

BUILDING A MOVEMENT

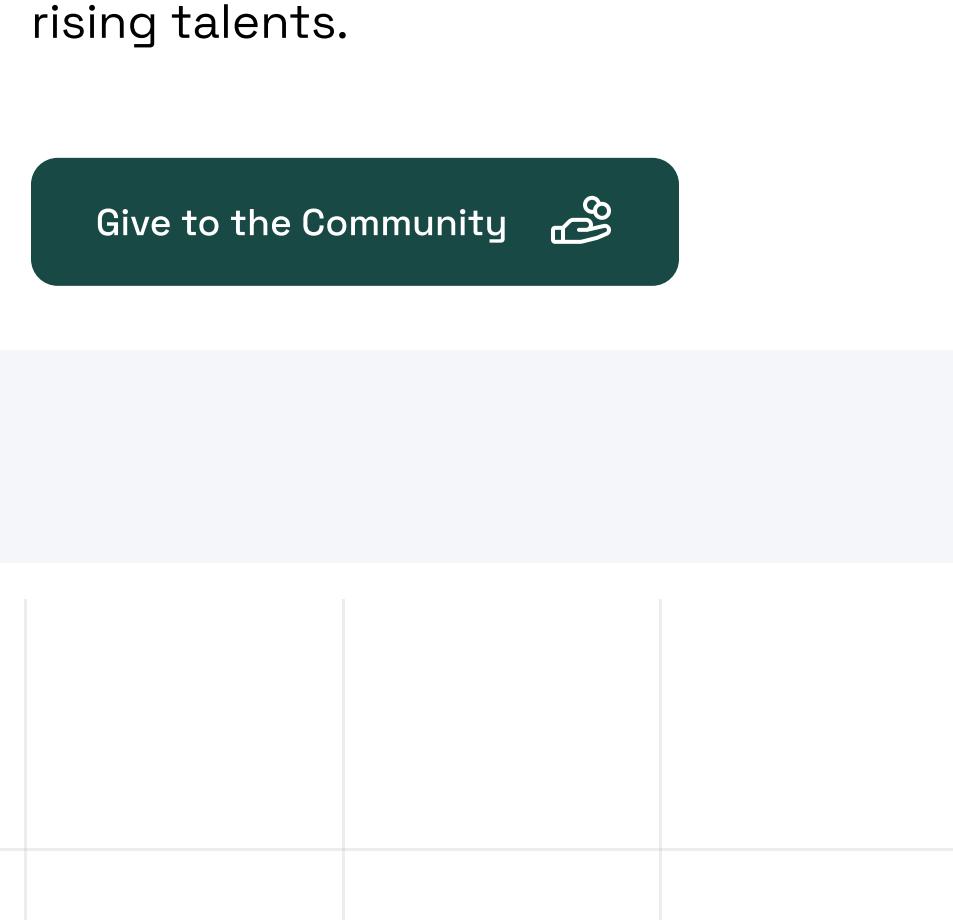

He's not just developing engineers – he's fostering a culture of excellence, inclusion, and impact. Through his leadership, a new generation of African tech professionals is rising – bold, equipped, and ready to lead.

OUR PROGRAMS, DESIGNED FOR YOU

Feeling stuck in your tech journey?

Whether you're just starting out or unsure how to grow, we've designed each of our programs to meet you where you are – and move you forward.

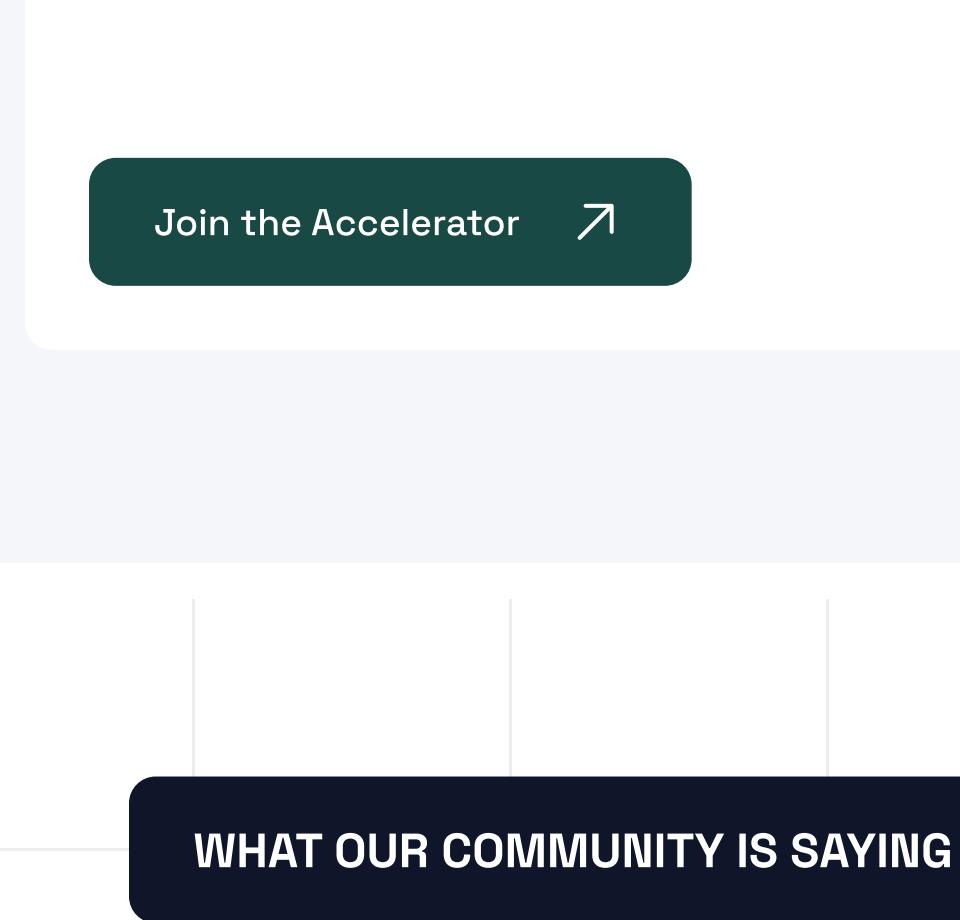

RISING STARS PROGRAM

Our entry-level program identifies and nurtures exceptional early-career talents through comprehensive support.

Understanding that emerging talents often need more than just mentorship, we provide substantial financial backing to support their self-development journey.

[Begin Your Journey](#)

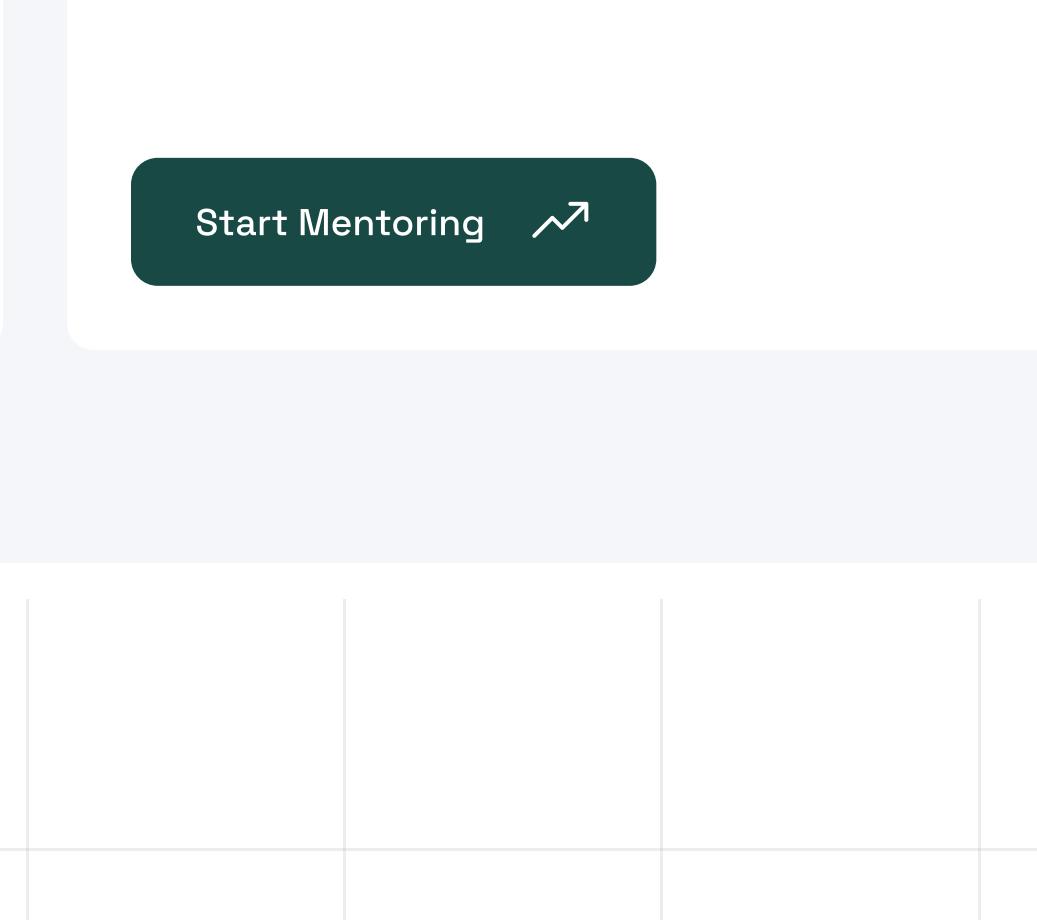

MID-LEVEL ACCELERATOR

Designed for established professionals seeking to elevate their career trajectory through innovative thinking, strategic networking, and enhanced leadership capabilities.

This program connects accomplished talents with a community of like-minded professionals.

[Join the Accelerator](#)

TECH LEADERS CIRCLE

An exclusive circle comprising distinguished industry veterans, trusted former colleagues, and respected tech leaders who share our passion for nurturing talent. This close-knit network of professionals brings together years of experience and a shared commitment to giving back to the tech community.

[Join the Circle](#)

"While we scale to impact more lives, our commitment remains unchanged: ensuring YOU receive the personal guidance and support YOU need to thrive."

FINANCIAL TRANSPARENCY

While this initiative has been primarily self-funded by our founder since inception, external donations play a crucial role in amplifying our impact. Your support not only validates our mission but enables us to reach and support more talented individuals, creating a wider ripple effect in the tech community. Every contribution helps us extend our comprehensive support to more deserving talents who could benefit from our proven mentorship and guidance programs.

CURRENT FUNDING STATUS

#4,550,000

Cash in Bank (+ External Donations)

65% is the Founder's personal contribution

QUARTERLY EXPENSES OVERVIEW

Detailed quarterly expense reports are published at the end of each quarter, providing complete transparency on:

- Talent support disbursements
- Tools and resources provided
- Community events and activities
- Operational costs

DONATION PROCESS

While we deeply appreciate the community's interest in supporting our mission, we maintain a careful due diligence process for all potential donations:

- All donation inquiries must be initiated through our official Telegram channel to ensure transparency and proper documentation
- A brief due diligence process is conducted for all potential donors to ensure alignment with our community values
- Real-time updates of received donations are reflected in our public financial dashboard
- Quarterly reports detail how all donations are utilized to support our community members

Note: External donations enable us to expand our reach and impact, helping us support more talented individuals while validating and strengthening our community's mission. Together, we can create more opportunities for deserving tech talents.

GIVE TO THE COMMUNITY

FINANCIAL SUPPORT

Contribute to our community fund to help provide resources and support to rising talents.

[Give to the Community](#)

PROJECT OPPORTUNITIES

Outsource your tech projects to our talented community members.

WHAT OUR COMMUNITY IS SAYING

Real stories from real people – growing, building, and leading through SEGSALERTY.

"SEGSALETRY gave me the structure and support I didn't know I needed. I've grown so much, both technically and personally."

Chidera Okonkwo
Rising Star

"Being here opened doors I thought were shut. Real projects, real mentorship, real results."

Grace Williams
Rising Star

"Mentoring here has been one of the most fulfilling parts of my tech career. The growth in the community is real and intentional."

Tolu Adeyemi
Mentor
